Re: ET Docket No. 00-258
Ex Parte Presentation

Dear Ms. Dortch:

On Wednesday, August 11, 2004, Michael Ha and I of Nextel Communications and William Mueller of Agilent Technologies spoke with Ed Thomas, Bruce Franca, Geraldine Matise, Jim Schlichting, and Jamison Prime of the Office of Engineering and Technology, and Tom Derenge, Marty Liebman, and Blaise Scinto of the Wireless Telecommunications Bureau. We reviewed the independent technical analysis that Agilent prepared and Nextel filed in this docket on August 5, 2004. Agilent's analysis and findings fully support Nextel's previously stated position that licensees can use the H-Block frequencies today without creating harmful interference for incumbents.

Consistent with section 1.1206(b)(2) of the Commission's rules, 47 C.F.R. § 1.1206(b)(2), please include this letter in ET Docket No. 00-258.

Sincerely,

Trey Hanbury
